

Strategic Advisory

We offer key advisory capabilities, ranging from strategic planning support, to global geo-strategic analysis, to merger and acquisition support.

Strategic Planning Support

There are few challenges for a business process as challenging as the annual Strategic Planning Process. We can organise and assess your process, and structure the process so that the outcome is both fact-based and has clear deliverable goals for each element within your organisation. Which markets to serve? Which products to focus sales and R&D efforts? Which clients offer the best risk/reward? How to incentivise and reward leadership, and what success parameters to assess. We also have long experience in delivering CEO planning and guidance services, both 'upward' (Board and Investors), and 'downward'.
